How to Make a Bun:

Start with a Low Ponytail.

Starting at the base of the ponytail, twist the ponytail all the way down to its end.

Take the twisted hair and wrap it around the base of the ponytail in a circular motion.

Continue the circular motion until a bun is formed. Hold bun securely.

As you are holding bun securely, a hairnet around the bun is required. Put hairnet around bun and start by pinning down the loose end and continue to pin around the bun.

Make sure bun is pinned down tightly and even with the ears.
